## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Claim Objections***

2. Claim 12 is objected to because of the following informalities: line 2-3, change "the pair of lens covers pickup unit" to - - the pair of lens covers--.

### ***Double Patenting***

3. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

Claims 10-13 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 10-13 of prior U.S. Patent No. US-6,515,705. This is a double patenting rejection.

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

a) Chan (US-4,032,940) discloses a retractable camera wherein the retracted position covers the objective lens and shutter release member in the main section of the camera.

b) Maitani et al. (US-4,240,735) disclose a protective cover for taking lens of a camera.

c) Ohmura et al. (US-4,493,542) disclose a photographic camera with a handle grip.

d) Balling et al. (US-5,671,459) disclose a camera's covered mechanism.

e) Yoshida et al. (US-5,822,638) disclose a camera wherein the photography-time used members are shielded by a protective cover in closed state.
